

Here is my Testimony about my stay in Department of Social work, The oxford college of Arts.

I had a great experience during my stay in Department of Social work, The oxford college of Arts for pursuing Masters in Social Work ,Starting from the Head of department Dr. Shashidhar Channapa a great teacher and a wonderful soul who has always pushed his students to go for that extra mile and not only did he kept in touch after completion of our post graduation with all of us but also supported in any ways he has found out about our work fields or about our work heads.

Rest of the teachers & staff are very skillful and helpful which really helps us in an easy & smooth conduct and completion of our post graduation.

After my course completion here at Department of Social work, The Oxford College of Arts, Bangalore , I have gotten many work opportunities from various top firms and organization and did a lot of work in between but something that I want to mention is joining the National Mental Health Survey team under Govt of India for Assam State(My Native Land). Where I was an active part of the team which helped in surveying the mental health of the nation and it was a significant milestone for Mental health care Act. I am really grateful that I was a part of it. Thereafter I also joined missionaries of charity in Tezpur, Assam after the NMHS survey completed and worked as a full time psychiatric social worker.

Presently pursuing my M.Phil Program at Lokopriya Gopinath Bordoloi Regional Institute of Mental Health (*LGBRIMH*) **Tezpur**

Thank you all.

Yours Sincerely,
Monalisa Boruah
2012-14 Batch
