## INVITATION LETTER

To

Mr. Anwar Abdul Malik

Director

Shine Star Pharma Pvt Ltd

Govinda Agraharam, Sipcot-1,

Hosur - 635126

**Sub: Application to apply for an internship**

Greetings of the day!

As the principal of The Oxford College of Pharmacy, I am writing to explore the possibility of establishing an internship program for our students with Shine Star Pharma Pvt Ltd. As a part of our academic achievements and credentials relevant to the course, I believe that an internship program with your esteemed organization would be an excellent opportunity for our students to enhance their learning experience and prepare for their future careers.

Thank you

# Memorandum of Understanding (MOU)

Between:

Party-1:

World Alumni Network Pvt. Ltd. (WAN),  
600 (FF2), Ring Road, Cross 15,  
JP Nagar Phase 6, Bengaluru 560078, India;  
+91-80-2665-3333, +91-80-2665-7777

and

Party-2:

The Oxford College of Pharmacy,  
6, Hongasandra Main Road, Hongasandra,  
Bengaluru 560068, Karnataka, India

This MOU, dated 22<sup>nd</sup> September 2017, establishes a mutual working relationship between the two parties (and their respective heirs, executors, administrators and assignees) as broadly outlined below:

## Party-1's Role:

1. Party-1 is creating a state-of-the-art secure Online Platform as worldalumni.com (with related domains) for all the alumni, students, staff, faculty and related individuals at global level to find, connect, communicate, collaborate and coordinate in an integrated and seamless online environment for academic, placements, business, professional, personal and other uses
2. Registration at this Online Platform by any individual is purely voluntary and it is between Party-1 and the individual members
3. Party-1 is making all the necessary investment on its own for developing the Online Platform
4. Party-1 will provide one Premium Membership as a respect to the head of the Party-2 at no cost to Party-2
5. Party-1 on its Online Platform will provide a link to Party-2's primary website

## Party-2's Role:

1. There is no financial obligation on the part of Party-2
2. Party-2 will designate a person to oversee the information provided by the members in the Online Platform
3. Since any duplication of information at multiple places can make it difficult or cause confusion in finding the right information by the members, Party-2 will not engage in any duplication of the information provided at the Online Platform by Party-1, or it will not promote or use any such duplicated information
4. Party-2 on its primary website will provide a link to Party-1's Online Platform

This MOU may be amended at any time with the mutual consent of both the parties.

## PREAMBLE

A workshop demo on the topic "Advanced Profession Oriented Career Guidance" was organised by the Department of Pharmacognosy, The Oxford College of Pharmacy, Bengaluru. The workshop started with an inaugural address by Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy. Dr. Padmaa extended her warm welcome to the participants and resource person, Mr. Dinesh. Around 50 students from final year attended the workshop. Ms Sravani T, Assistant Professor, Department of Pharmacognosy, The Oxford College of Pharmacy introduced the resource person of the day Mr. Dinesh, Manager, Assay Clinical Research, UK, global Operations. Mr. Dinesh thanked all the participants and started the session. He started to explain about Assay academy which trains the students who are looking for a Career oriented workshop or training. He briefly discussed the course details, fee structure and the benefits to the participants after completion of the course. He explained about the core factors of Assay academy which its emphasis on like, opportunities, recognition, access and analyse, network, growth, evolve. He later on added that they will provide a career guidance to all the graduates with their industrial experience, knowledge about more than 20+ departments within pharmaceutical sector like

- Sponsor
- R and D
- Regulatory affairs
- Contract Research Organisation
- Business development
- Medical writing
- Clinical operations
- Ethics Committee
- Clinical trial management
- CDM
- Biostatistics
- Quality Assurance

Mr. Dinesh added that the main of the Assay academy is to provide Workshop training, Study materials, Certification, Interview exposure and Internships which gave a strategical industry-oriented development and training with industrial concepts. He finally assured that the academy provides various benefits which can help the students know about the multiple options available in the pharmaceutical sector, knowledge to crack interviews that will help to choose career based on their skills and knowledge. Later, there was an Q and A session with the students where Mr. Dinesh responded to the queries raised by the students. This was followed by a vote of thanks from Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy. Finally, the workshop was ended with a vote of thanks by Ms. Sravani T. who thanked Mr. Dinesh on behalf of The Oxford Group of Institutions for sharing valuable information regarding the various options available to students industrially which can help to shape their career in future. Ms. Sravani also thanked Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy, for the support she has extended in successfully organizing the workshop.

### PREAMBLE

A session on "ICT/Computing skills using MS Office" was conducted on December 24, 2021, by Mr. Gambir, Computer System Admin at The Oxford College of Pharmacy, who served as the facilitator. Mrs. Nagalakshmi R, Training Coordinator from the Department of Pharmacology, was also present. The session was attended by 112 students from the B.Pharm and Pharm D programs. The primary goals of the workshop were to disseminate information on using common Microsoft Office programs, creating documents for printing and sharing, creating and sharing presentations, and managing and storing data in a spreadsheet, with the aim of enhancing student productivity for long-term job success. Mr. Gambir conducted a one-day course on MS Office for the students, focusing on Microsoft Word for creating and editing documents, Microsoft Excel for managing and storing data in spreadsheets, and Microsoft PowerPoint for creating and sharing presentations. Individual work on these topics was also incorporated into the session. Dr. Padmaa M. Paarakh concluded the session by expressing gratitude to the speaker for sharing knowledge with the students.

## PREAMBLE

A session on "Communication skill on goal setting: Setting achievable goals, creating action plans, and monitoring progress" was conducted on the 20/01/2022 by Mr. Venkataswamy Research Associate, Business one Technologies, Bangalore. Mr. Venkataswamy was the Facilitator for the Seminar. Mrs. Nagalakshmi, Training Coordinator, from the Department of Pharmacology were present. The seminar was attended by 112 students from final year I B. Pharm, and I Pharm D. Goal setting is a fundamental aspect of personal and professional development, enabling individuals to strive towards desired outcomes and objectives. However, setting goals is not merely about stating intentions; it requires a structured approach involving the establishment of achievable goals, the creation of actionable plans, and the diligent monitoring of progress. This session aims to focus on the key components of effective goal setting and provide insights into best practices for setting achievable goals, creating action plans, and monitoring progress. Mr. Venkataswamy summarized the objective of the seminar, emphasizing the importance of setting achievable goals that are specific, measurable, attainable, relevant, and time bound. He urged students to create actionable plans by breaking down goals into manageable tasks, prioritizing them, allocating resources effectively, and developing contingency plans. Additionally, he highlighted the significance of monitoring progress regularly to ensure goals are being pursued effectively.

## OUTCOME OF THE PROGRAMME

The program was organized with the aim of helping students grasp the essence of effective goal setting, which encompasses establishing achievable goals, creating actionable plans, and diligently monitoring progress. 112 students participated in the session. By adhering to these key principles and best practices, students can enhance their ability to realize both personal and professional aspirations and objectives. It's crucial to understand that goal setting isn't just a theoretical exercise; rather, it's a dynamic process demanding dedication, perseverance, and adaptability to achieve meaningful outcomes.

## INVITATION LETTER

To

Dr. N. Shivaprasad,  
Managing Director,  
Manipal Natural Pvt Ltd

**Sub: On the Job Training and Collaborative Research program reg;**

Dear Dr. N. Shivaprasad,

It is my pleasure to invite you as a Guest lecturer to participate in the on-the-job training and collaborative research program at The Oxford College of Pharmacy, Bangalore. The faculty and students will utilize this time to collaborate with you on knowledge and experience.

The program will include a diverse range of activities, lectures, workshops, and research collaborations. We believe that your participation in this program would provide a unique opportunity for our faculty and students to learn from your expertise and share their knowledge with you.

## PREAMBLE

A webinar on the topic “The Nutraceutical Revolution: Future of Healthcare in India” was organised by the Department of Pharmacognosy, The Oxford College of Pharmacy, Bengaluru. The webinar was organised using Microsoft (MS) teams as a platform. The participants got registered prior with the link along with poster which was circulated to students. There were 116 participations for this webinar, whereas the students and faculty have assembled in seminar hall no. 505 and the resource person has joined through MS teams platform through online mode.

Nutraceutical revolution in India indicates a transformative journey aimed at enhancing overall health and well-being with the incorporation of traditional practices, modern science and pioneering solutions.

The guest speaker of the day was Dr. H. N. Shivaprasad, Managing Director, Manipal Natural Pvt Ltd. The webinar started with an inaugural address by Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy. Dr. Padmaa extended her warm welcome to the participants and resource person of the webinar. Ms. Sravani T, Assistant Professor, Department of Pharmacognosy, The Oxford College of Pharmacy introduced the resource person of the day and read out a brief biodata of Dr. H. N. Shivaprasad, which was as follows.

### The content delivered in the webinar is as follows:

**Dr. H.N. Shivaprasad**, the guest speaker of the day, thanked all the participants and started the session. The following were the key points of the webinar discussed by Dr. Shivaprasad.

- Nutraceuticals and different classes of nutraceuticals in the market.
- Regarding Global regulations of Nutraceuticals and Nutraceutical market split by the product type.
- Region wise global supplement market share.
- Key and niche Global nutraceutical players.
- Non comprehensive nutraceutical classification.
- Covid-19 outbreak and its impact on nutraceuticals.

# The Oxford College of Pharmacy

(Recognized by the Govt. of Karnataka, Affiliated to Rajiv Gandhi University of Health Science, Karnataka;  
Approved by Pharmacy Council of India, New Delhi)

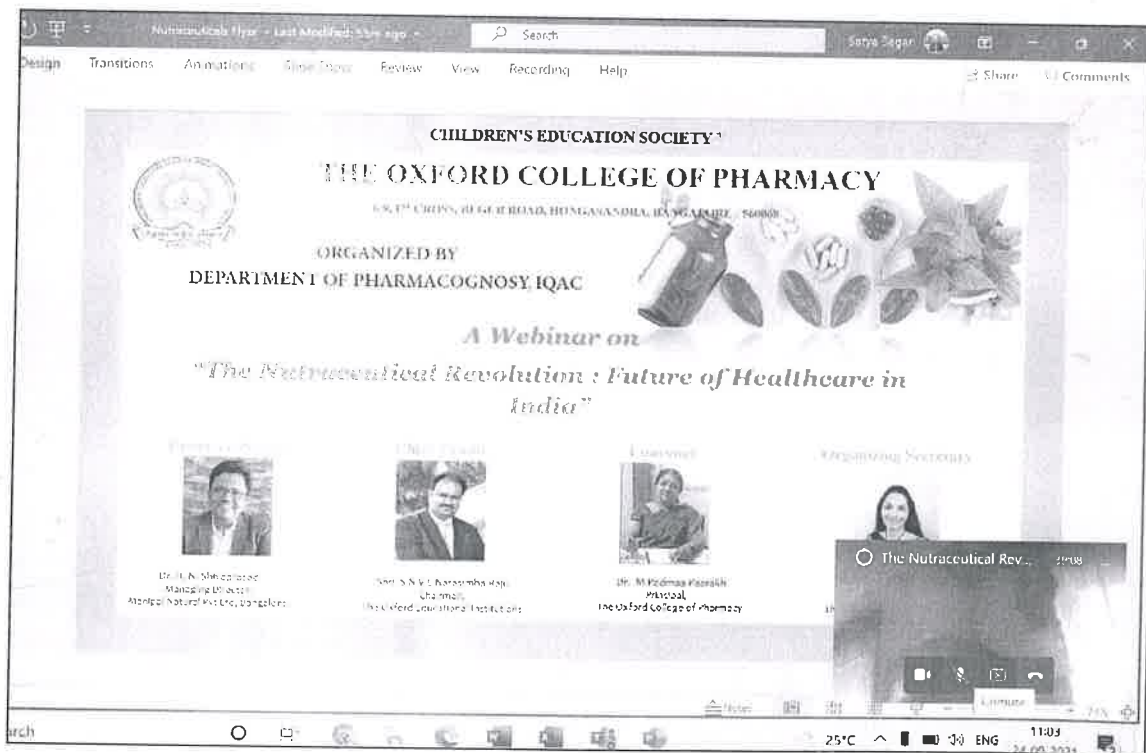

Accredited by NAAC and International Accreditation Organization (IAO)

- Key driving factors for the acceptance of natural products.
- Opportunities in herbal sector.
- Indian nutraceutical market and key growth factors.
- Leading names of nutraceuticals space in India.

Later, **Dr. H. N. Shiva Prasad** responded to the queries raised by the participants. This was followed by a vote of thanks from Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy. Finally, the session was ended with a vote of thanks by Ms. Sravani T who thanked Dr. H. N. Shiva Prasad on behalf of The Oxford Group of Institutions for gracing important work and for sharing his findings and opinions on the topic "The Nutraceutical Revolution: Future of Healthcare in India" as more and more population are positively moving towards dietary supplements to address the nutritional deficiencies.

Ms. Sravani also thanked Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy, for perfect logistic support and guidance, she has extended to all of us in successfully organizing the webinar.

Dr. H.N. Shivaprasad interacting with the participants

## OUTCOME

There were 116 participants. The overall session discussion benefitted the faculties and students. The webinar would help students to understand how nutraceuticals are vital and their role in maintaining a healthy life style. Current market consists of numerous irrational combinations of nutraceuticals, hence, judicious usage of nutraceuticals is the need of the hour. Hence regulatory authorities are required to initiate stringent measures. Additionally, the speaker addressed driving factors for the acceptance of natural products and Indian nutraceutical market and key growth factors.

## PREAMBLE

The Department of Pharmaceutics, The Oxford College of Pharmacy conducted the webinar on "QMS in Pharmaceuticals" for the students, scholars and teaching faculties. There were totally 85 participants which included faculties, research scholars, undergraduates and post graduates, whereas the students and faculty have assembled in seminar hall no. 505 and the resource person has joined through MS teams platform through online mode.

Quality Management System (QMS) is an important element which ensures consistent production of safe, effective and quality drug products. It consists of procedures, processes and practices with respect to manufacturing, beginning from raw materials or excipients procurement to distribution.

### The content delivered in the webinar is as follows:

He briefed the participants with the basic concept of QMS and its various elements and explained the importance of QMS in Pharmaceutical Industry. He discussed about the key elements of QMS viz., Good Manufacturing Practices (GMP), Quality Control (QC) and Quality Assurance (QA), internal audits, Staff training and competency, proper documentation and continuous improvement. He also explained the detailed guidance for implementing a QMS, Qualification, Validation, cGMP, and various other quality assurance factors in pharmaceuticals.

He emphasized on the importance of documentation control and how to take corrective and preventive measurements and also the benefits of QMS like Increase Efficiency, reducing human errors, Lowering Costs, improve customer satisfaction, reduces training time of new employees, improving processes, products, and systems, Compliance with Industry best standards, improve internal communication.

## OUTCOME

There were 85 participants. The current webinar would help students in understanding Quality Management System (QMS), its key elements and its implementation in the pharmaceutical industry. QMS constitutes a set of activities, processes and documentation that improve the quality of the pharmaceutical product. Additionally, the speaker discussed about the elements of the QMS. Quality is unavoidable thing and has to be given a top priority. Through this session, the participants would have definitely understood how quality is a legal issue and its importance in the pharma industry.

Mr. Jayaprakash Nogaja

Senior Officer

Reckitt, Mysuru

Dear Sir,

Thank you for your thought-provoking online Guest Lecture on “**QMS in Pharmaceuticals**” for our institution The Oxford College of Pharmacy, Bangalore. The presentation and points you were discussed during guest lecture were really helpful for most of the participants. I thank again for a truly memorable guest lecture. We hope you can join us again.

Regards,

*P. Padma*

## INVITATION LETTER

To

Dr. Rajkumar Aland,  
Bio plus Life Sciences,  
Bangalore.

**Sub: On the Job Training and Collaborative Research program reg;**

Dear Dr. Rajkumar Aland,

It is my pleasure to invite you as a Guest lecturer to participate in the on-the-job training and collaborative research program at The Oxford College of Pharmacy, Bangalore. The faculty and students will utilize this time to collaborate with you on knowledge and experience.

The program will include a diverse range of activities, lectures, workshops, and research collaborations. We believe that your participation in this program would provide a unique opportunity for our faculty and students to learn from your expertise and share their knowledge with you.

## PREAMBLE

The Department of Pharmaceutics conducted the online webinar on “DIGITALIZATION OF PHARMA INDUSTRIES: CHALLENGES & OPPORTUNITIES” for the students, scholars and teaching faculties. There were totally 129 participants, which included faculties, research scholars, undergraduates and post graduates, whereas the students and faculty have assembled in seminar hall no. 505 and the resource person has joined through MS teams platform through online mode. Dr. Rajkumar Aland, General Manager, Bioplus Life Sciences, Bangalore delivered the lecture.

Digitalization in pharma sector has brought tremendous changes, offering wide array of opportunities with unique challenges. Incorporation of digital technologies in pharmaceutical industry is essential thereby which cost effectiveness, production efficiency, transparency in drug development process.

### **The content delivered in the webinar is as follows:**

The impact and use of digital platforms in the field of pharmacy was discussed in this session. The Speaker of the Session Dr. Rajkumar Aland presented the keynote address on “DIGITALIZATION OF PHARMA INDUSTRIES: CHALLENGES & OPPORTUNITIES”. Digitalization in pharma industry will improve the supply chains and operational processes making them more adaptive and responsive. This has to be initiated as early as possible by looking at the pace of technology. Digitalization of any manufacture industry is a key step in any progress of the production process. The process of digitalization includes both increased use of robotics, automatization solutions and computerization, thereby allowing to reduce costs, to improve efficiency and productivity, and to be flexible to changes.

Additionally, he discussed about the Indian Pharmaceutical industry wherein the companies have started slowly to use digital technologies. But however, he mentioned few challenges that are to be faced like resistance to change, lack of digital skills, data protection and compliance with regulations to protect sensitive information and financial challenges associated with implementation of digitization.

Digitalization in pharma industry can bring several advantages like reduced production costs, improved quality reduced capacity restrictions. While the use of a digital platform can improve processes in a variety of ways, including data collection, real-time sharing of trial results, and the capacity to track various aspects of productions.

CHILDREN'S EDUCATION SOCIETY (R)	THE OXFORD COLLEGE OF PHARMACY	DEPARTMENT OF PHARMACEUTICS
<p><b>About Us</b></p> <p>The Oxford College of Pharmacy, one of the flagships of Oxford Group of Institutions, managed by Children's Education Society (Regd.), was established in the year of 1992. Our institution has a well-qualified and dedicated staff, well-developed infrastructural facilities, committed management. We all work as a team towards a common vision to produce next-generation pharmacists. The Oxford College of Pharmacy is modeled to provide a scholarly environment to the students with strong industrial links. The Oxford College of Pharmacy has always aimed at developing students into good citizens who are not only good human beings but also capable of contributing to the improvement of the pharmacy profession in particular and society in general. In pursuit of this goal, students of The Oxford College of Pharmacy are provided with a strong foundation that lays equal emphasis on sound education, inculcation of a positive mental attitude and the skills to succeed in the career. We are the one who believes in "Don't to be afraid to give up the good to go for the great" (John D Rockefeller)</p>	<p><b>About Department</b></p> <p>Pharmaceutics is a multidisciplinary field concerned with the creation, manufacture, and characterization of dosage forms/Novel drug delivery systems, as well as the disposition and activity of pharmaceuticals in the body. Students are educated in everything from basic ideas to the most recent breakthroughs in pharmaceutics and pharmaceutical technology.</p> <p>The department strives to promote a strong multidisciplinary, team-based approach to development of formulation and drug delivery, which encompasses a wide range of activities in the field of drug formulation and delivery. Faculty and students in the department work together to develop novel formulations through support of institution, research grants by AICTE, RGUHS, and other research funding agencies. We also approach to pharma industries for industrial projects, and other means. The Department of Pharmaceutics performs research and formulation development with the goal of enhancing patient care by maximizing therapeutic efficacy while reducing drug toxicity.</p>	<p><b>Department of Pharmaceutics</b> The Oxford College of Pharmacy, Bangalore (Approved by PCI, Govt of Karnataka, Affiliated to RGUHS, &amp; Accredited by NAACB+)</p> <p>Organizing a Webinar Under IQAC On "DIGITALIZATION OF PHARMA-INDUSTRIES: CHALLENGES &amp; OPPORTUNITIES" By  Dr. Rajkumar Aland On  04-02-2022 @ 11 AM.</p>

This programme is arranged in the motive of sharing the knowledge and practical experience of Dr. Rajkumar Aland, who has a long year of experience in pharmaceutical research field and in the industry. The overall organization and deliverance of the webinar was helpful and satisfied the participants.

**INDIAN PHARMACEUTICAL INDUSTRY**

- Now that the era of conventional small molecule blockbuster medicines is about to end, the big pharma focus is shifting towards high value but lower volume products such as biomedicines, orphan drugs and advanced medical devices.
- The increasing price pressure caused by the tightening market price, regulations and patent expirations is forcing pharma companies to challenge their current product and market strategies in order to survive.
- New technologies and innovations are already enabling pharma companies to improve medicine development and patient care.
- Currently, Digitalisation is fundamentally changing the healthcare industry.
- The Pharma Industry, as a core part of healthcare, is no exception to this.

### STRATEGIC OF DIGITAL VISION

The digital strategy would involve following elements:

- IT and Digital teams to embrace business trajectory and get embedded in business planning and execution.
- Each critical area in the value chain - research & development (eLNB/QbD), manufacturing (eBMR) & quality (PAT), supply chain (SAP), sales & marketing (MIS), digital communications (e-marketing), advanced financial analytics & control - ought to clearly define the approach for digitalized operations.
- Specific goals which are embedded in business and are time-bound, give much-needed sense of urgency to the digitization roadmap.
- Tactical choices to be made in terms of specific Enterprise resource planning (ERP) platform, implementation partners, pilot vs full implementation and so on i.e SAP LIMS, etc.

## OUTCOME

There were 129 participants. The overall session discussion benefitted the participants. Digitalization in the pharmaceutical industry, when implemented right, can improve product and process quality. Most pharmaceutical organizations are hesitant to implement digital manufacturing techniques because they were concerned that their systems, data, and people were not ready. However, many firms have realized that waiting is not an option and have begun experimenting with digitization. While the use of a digital platform can improve processes in a variety of ways, including data collection, real-time sharing of trial results, and the capacity to track various aspects of productions.

Dear Sir,

Thank you for your thought-provoking online Guest Lecture on “**Digitalization of Pharma Industries: Challenges and Opportunitues**” for our institution The Oxford College of Pharmacy, Bangalore. The presentation and points you were discussed during guest lecture were really helpful for most of the participants. I thank again for a truly memorable guest lecture. We hope you can join us again.

Regards,

*P. Padma*

**Sub: Faculty Exchange and Collaborative Research Program Reg;**

Dear Dr. M.P. Venkatesh,

It is my pleasure to invite you as a Guest lecturer to participate in a faculty exchange and collaborative research program at The Oxford College of Pharmacy, Bangalore. The faculty and students will utilize this time to collaborate with you on knowledge and experience.

The program will include a diverse range of activities, lectures, workshops, and research collaborations. We believe that your participation in this program would provide a unique opportunity for our faculty and students to learn from your expertise and share their knowledge with you.

## PREAMBLE

The Department of Pharmaceutics conducted the webinar on “DRUG DEVELOPMENT AND REGULATORY APPROVALS” for the students, scholars and teaching faculties. There were totally 94 participants, from various other institutions which included faculties, research scholars, undergraduates and post graduates, whereas the students and faculty have assembled in seminar hall no. 505 and the resource person has joined through MS teams platform through online mode.

Dr. M.P Venkatesh, Associate Professor, JSS College of Pharmacy, JSS Academy of Higher Education and Research, Mysuru delivered the lecture.

Drug Development is a complex and highly regulated process which involves numerous stages. Food and Drugs Administration (FDA) plays important role in approving the drug in terms of safety and effectiveness before they are released into the market. The webinar provided valuable information starting from drug discovery to stages involved in pre-clinical testing of animals followed by review from FDA team.

### **The content delivered in the webinar is as follows:**

The stages in drug development and regulatory approvals in the field of pharmacy was discussed in this session. The Speaker of the Session Dr. M.P. Venkatesh presented the keynote address on “DRUG DEVELOPMENT AND REGULATORY APPROVALS”. The drug development initiates with discovery where researchers carry out thorough investigation about study diseases, molecular models and identify potential drug targets followed by pre-clinical testing in animals in three distinct phases. Through clinical trials, once the drug is safer and efficacious, then the pharmaceutical company submits New Drug Application (NDA) to FDA. NDA consists of all the data viz., pre-clinical and clinical trials for the investigated drug.

Children's Education Society (Regd.)

# The Oxford College of Pharmacy

(Recognized by the Govt. of Karnataka, Affiliated to Rajiv Gandhi University of Health Science, Karnataka;

Approved by Pharmacy Council of India, New Delhi)

Accredited by NAAC and International Accreditation Organization (IAO)

The Regulatory Affairs (RA) is a department of a pharmaceutical industry, which is responsible for obtaining approval for new pharmaceutical products and ensuring that approval is maintained for as long as the company wants to keep the product on the market. The RA department reviews all documentation from a regulatory perspective, ensuring that it is clear, consistent and complete, and that its conclusions are explicit.

Effective regulation of drugs requires a variety of functions. Important functions include (1) evaluation of safety and efficacy data from animal and clinical trials, (2) licensing and inspection of manufacturing facilities and distribution channels to assure that drugs are not contaminated, (3) monitoring of adverse drug reactions for investigational and marketed drugs, and (4) quality control of drug promotion and advertising to assure that safety and efficacy claims are accurate. In some countries all functions surrounding drug regulation come under a single agency. In others, particularly those with a federal system of government, some drug regulatory authority is assumed by state or provincial governments.

THE OXFORD COLLEGE OF PHARMACY

DEPARTMENT OF PHARMACEUTICS

## About Us

"The Oxford College of Pharmacy, one of the flagships of Oxford Group of Institutions, managed by Children's Education Society (Regd.), was established in the year of 1992. Our institution has a well-qualified and dedicated staff, well-developed infrastructural facilities, committed management. We all work as a team towards a common vision to produce next-generation pharmacists. The Oxford College of Pharmacy is modeled to provide a scholarly environment to the students with strong industrial links. The Oxford College of Pharmacy has always aimed at developing students into good citizens who are not only good human beings but also capable of contributing to the improvement of the pharmacy profession in particular and society in general. In pursuit of this goal, students of The Oxford College of Pharmacy are provided with a strong foundation that lays equal emphasis on sound education, inculcation of a positive mental attitude and the skills to succeed in the career. We are the one who believes in "Don't be afraid to give up the good to go for the great" (John D. Rockefeller)

## About Department

Pharmaceutics is a multidisciplinary field concerned with the creation, manufacture, and characterization of dosage forms/Novel drug delivery systems, as well as the disposition and activity of pharmaceuticals in the body. Students are educated in everything from basic ideas to the most recent breakthroughs in pharmaceutics and pharmaceutical technology.

The department strives to promote a strong multidisciplinary, team-based approach to development of formulation and drug delivery, which encompasses a wide range of activities in the field of drug formulation and delivery. Faculty and students in the department work together to develop novel formulations through support of institution, research grants by AICTE, RGUHS, and other research funding agencies. We also approach to pharma industries for industrial projects, and other means. The Department of Pharmaceutics performs research and formulation development with the goal of enhancing patient care by maximizing therapeutic efficacy while reducing drug toxicity.

## OUTCOME

There were 94 participants. The overall session discussion benefitted the participants. Concerns related to the efficacy and safety of drugs right from drug discovery and including its testing in pre-clinical and clinical studies have caused most governments to develop regulatory agencies to oversee development and marketing of drug products. Use of any drug carries with it some degree of risk of an adverse event. For most drugs the risk-to-benefit ratio is favourable; that is, the benefit derived from using the drug far outweighs the risk incurred from its use. However, there have been unfortunate circumstances in which drugs have caused considerable harm. The harm has come from drug products containing toxic impurities, from drugs with unrecognized severe adverse reactions, from adulterated drug products, and from fake or counterfeit drugs. Because of these issues, effective drug regulation is required by the regulatory bodies to ensure the safety and efficacy of drugs for the general public.

Dear Sir,

Thank you for your thought-provoking online Guest Lecture on **“Drug Development and Regulatory Approvals”** for our institution The Oxford College of Pharmacy, Bangalore. The presentation and points you were discussed during guest lecture were really helpful for most of the participants. I thank again for a truly memorable guest lecture. We hope you can join us again.

Regards,

*P. Padma*

**Sub: Faculty Exchange and Collaborative Research Program Reg;**

Dear Dr. Anusuya Patil,

It is my pleasure to invite you as a Guest lecturer to participate in a faculty exchange and collaborative research program at The Oxford College of Pharmacy, Bangalore. The faculty and students will utilize this time to collaborate with you on knowledge and experience.

The program will include a diverse range of activities, lectures, workshops, and research collaborations. We believe that your participation in this program would provide a unique opportunity for our faculty and students to learn from your expertise and share their knowledge with you.

## PREAMBLE

The Department of Pharmaceutics, The Oxford College of Pharmacy conducted the webinar on “Advances and Applications in Novel drug delivery systems” for the students, scholars and teaching faculties. There were totally 55 participants, whereas the students and faculty have assembled in seminar hall no. 505 and the resource person has joined through MS teams platform through online mode.

Dr. Anusuya Patil, Associate Professor, Department of Pharmaceutics, KLE College of Pharmacy, Bangalore delivered the lecture. The webinar was conducted on Microsoft (MS) team's platform. Novel Drug Delivery Systems (NDDS) have brought tremendous growth in pharmaceuticals by enhancing bioavailability, therapeutic efficiency and compliance. These systems improve drug delivery to target tissues. NDDS involves various drug carriers like liposomes, micelles, implants, nanoparticles, polymeric micelles, liquid crystals etc.,

### The content delivered in the webinar is as follows:

The speaker of the session Dr. Anusuya Patil presented the keynote address on “Advances and Applications in Novel drug delivery systems”.

She briefed the participants with the basic concept of Novel drug delivery system and its Advantages and explained the various types of drug delivery systems. She also explained about Drug eluting stents and its advantages. She mentioned about the importance of various implantable devices and ophthalmic inserts. She also explained the importance of polymers in Novel drug delivery system. She emphasized about the various types of novel drug delivery system and its advantages over conventional drug delivery systems.

She discussed recent technological advancements in pharmacy field. With the use of drug carriers like liposomes, micelles, niosomes, ethosomes, aquasomes, microspheres and implants, the drug can be delivered to the specific target site effectively. Nanotechnology offers increased bioavailability, enhance drug half-life with reduced drug toxicity.

Introduction

- Implants are intended for implantation in the body (usually subcutaneously) for the purpose of providing continuous release of the drug over long periods of time.
- Implants are administered by means of a suitable special injector or surgical incision
- These are developed with a view to transmit drugs and fluids into the blood stream without the repeated insertion of needles
- These systems are particularly suited for delivery requirements of drugs such as insulin, steroids, antibiotics, analgesics, heparin, total parenteral nutrition etc.

## OUTCOME

There were 55 participants. The overall session was beneficial to all the participants attended. Recent drug delivery systems formulated using advanced technologies helps in achieving systemic drug delivery at the target site with maximum therapeutic efficacy through nanotechnology-based formulations like liposomes, niosomes, ethosomes, aquasomes, phytosomes etc., This webinar would definitely help the participants to implement the knowledge gained during webinar in their research work for fruitful results.
