## PREAMBLE

The Department of Pharmaceutics organized the seminar on “**Understanding Research Methods**” for the students. Dr. Parthasarathy, Professor, The Oxford College of Pharmacy, Bangalore delivered the lecture. There were 20 participants.

The seminar was conducted with the aim to highlight the process of research, and structure of research design, how to write research paper and proposal thereby which the final year students of all courses could submit the project.

### **The content delivered in the seminar is as follows:**

The resource person began the session by addressing What Is Research and What Makes a Good Research Question, literature review and its purpose and the importance of planning and management skills in research. And additionally, how an individual is aware that he or she is a good researcher after completion of a project.

Literature review will aid students familiarise with the nature and benefits of conducting a literature review. Planning and management skills also play a vital role in research that are required in undertaking critical thinking for your research. And in the end, it is important for researcher to reflect upon the value of a good question, and provide an outline research proposal thereby which one can conclude that he or she is a good researcher.
