ABOUT US

The Oxford College of
Pharmacy (TOCP) was
established in 1992. TOCP
under the aegis of Children's
Education Society (R) offers
D Pharm, B Pharm, M Pharm,
Pharm D, Pharm D Post
Baccalaureate and PhD
Programs.

TOCP is recognized by the
Government of Karnataka,
affiliated to Rajiv Gandhi
University of Health
Sciences, Karnataka, and
Drug control Board,
Karnataka respectively,
approved by Pharmacy
Council of India, New Delhi.

PREAMBLE

The Department of Pharmaceutics recently organized a seminar on "Recent advances in computational intelligence" for students and teaching faculty. Dr. Mallikarjuna Shetty, a Professor at The Oxford College of Pharmacy, Bangalore, delivered the lecture. Approximately 27 participants attended the event.

Computational intelligence has been greatly developed in the recent years with the latest inventions. The contemporary machines can do and execute the jobs which were earlier considered to be impossible. These innovations have created a new way for researchers, engineers, and businesses to work together, thus, it is a thrilling time to be part of the field. The knowledge and the latest advancements of computational intelligence are the key elements that will define the future of technology in many ways.

The content delivered in the seminar is as follows:

In the presentation, the speaker stressed the significant importance of computational intelligence in the solving difficult problems and how it is transforming in different sectors. He emphasized the necessity of staying on top of the newest developments in this ever-changing field to gain new insights and hence, he ensured that the progress would be made. Through the use of the computational intelligence, we can solve some of the most difficult problems we are dealing with today and thus, create a better future for all. He addressed about machine learning, deep learning Artificial Intelligence, Artificial Neural Networks (ANNs), Convolutional Neural Networks (CNNs), Recurrent Neural Networks (RNNs) and Deep Belief Networks (DBNs).

OUTCOME

There were 27 participants in the seminar. The "Recent Advances in Computational Intelligence" seminar turned out to be a success. It not only gave attendees a complete knowledge of machine learning, deep learning, neural networks, natural language processing, and computer vision but also made them to be involved in discussions and to get the insights of the possible career paths. The seminar also gave the participants the opportunity to get in touch with the latest research and the techniques which are applicable to various industries. Overall, it was useful learning experience for the participants in their knowledge expansion and carrier opportunities.
